Discover the most common AI vocabulary words

GPTZero's AI Vocabulary feature detects the most frequent phrases and words used by AI models like ChatGPT, Gemini, Claude in our data set.

Try it now

Climate change is a pressing global issue caused by human activities particularly the emission of greenhouse gases like carbon dioxide. These emissions primarily result from burning fossil fuels such as coal, oil, and gas. The consequences of climate change are already evident, manifesting in rising global temperatures, melting glaciers and ice caps, and an increase in extreme weather events such as hurricanes, droughts, and floods.

Top AI Vocabulary and Phrases

- caused by human activities
- particularly
- such as
- consequences
- significantly impact

APRIL

Top 50 AI Words and Phrases Updated April 2026

These words and phrases are ranked based on the frequency they appear in AI documents, compared to human documents in our research of 3.3 million texts.

Phrase	Frequency used by AI vs. Human
1. provide a valuable insight	**182x** more frequent in AI
2. left an indelible mark	**111x** more frequent in AI
3. a stark reminder	**88x** more frequent in AI
4. a nuanced understanding	**77x** more frequent in AI
5. significant role in shaping	**70x** more frequent in AI
6. the complex interplay	**69x** more frequent in AI
7. broad implication	**64x** more frequent in AI
8. an unwavering commitment	**59x** more frequent in AI
9. endure a legacy	**58x** more frequent in AI
10. underscore the importance	**53x** more frequent in AI
11. play a pivotal role	**49x** more frequent in AI
12. a pivotal moment	**44x** more frequent in AI
13. navigate the complex	**44x** more frequent in AI
14. mark a turning point	**44x** more frequent in AI
15. continue to inspire	**44x** more frequent in AI

16.	gain a deeper understanding	**43x** more frequent in AI
17.	the transformative power	**43x** more frequent in AI
18.	hold a significant	**43x** more frequent in AI
19.	play a crucial role	**42x** more frequent in AI
20.	particularly a concern	**42x** more frequent in AI
21.	the relentless pursuit	**41x** more frequent in AI
22.	emphasize the need	**40x** more frequent in AI
23.	target an intervention	**39x** more frequent in AI
24.	a multi-faceted approach	**39x** more frequent in AI
25.	a serf reminder	**39x** more frequent in AI
26.	highlight the potential	**38x** more frequent in AI
27.	a significant milestone	**37x** more frequent in AI
28.	implication to understand	**36x** more frequent in AI
29.	potential risk associated	**36x** more frequent in AI
30.	leave a lasting	**35x** more frequent in AI
31.	add a layer	**35x** more frequent in AI
32.	offer a valuable	**35x** more frequent in AI
33.	a profound implication	**35x** more frequent in AI
34.	case highlights the importance	**34x** more frequent in AI

35.	finding a highlight of the importance	**33x** more frequent in AI
